

ME400CFN Constant Heat Foot Operated Sealer

Ideal for the Sealing of a Variety of PP, BOPP & Foil Bags

Secure 15mm Embossed Seal

SPECIFICATIONS

- Sealing Length: 400mm
- Seal Width: 15mm
- Thermo Controller: 30 - 200°C
- Timing Light and Signal
- Power Consumption: 420W
- Voltage/Frequency: 230V-240V/50Hz
- Electrical Plug Type M-16A
- IEC 60 335-2-45 Compliant
- Sealing Jaws: Stainless Steel with Teflon Coating
- Stand Height: 75cm
- Weight: 23Kg
- Sealing BOPP/PP/Aluminum Foil Thermoplastics
- Maximum Material Thickness: 200 micron

USAGE

This manual foot operated, industrial, constant heat type sealer provides a 15mm embossed seal that is air-tight and water-tight. Ideal for use with thicker micron PP, BOPP, Foil, Laminated bags and certain coated papers, where both hands are required to support the bag during the sealing process.

Examples of use: Bags containing foodstuffs, liquids, grains, powders, medical products etc.
