

**Air & water-tight seal**

**Consistent seal quality**

**Comprehensive range of spares**

## SPECIFICATIONS

Sealing Length: 600mm

Seal Width: 5mm

Timer Duration: 0.2 – 2.5 seconds

Congealed Timer Duration: 1 – 8 seconds

Auto Function Timer Setting: 1 – 8 seconds

Cable Type Foot Pedal

Power Consumption: 1500W

Voltage/Frequency: 230V-240V/50Hz

Electrical Plug Type M-16A

IEC 60 335-2-45 Compliant

Weight: 33Kg

Sealing PE/PP/LDPE/PVC Thermoplastics

Maximum Material Thickness: 300 micron

Packaging: 1 Pc / Box

Wire Element & Fuse Spares Kit Included

## USAGE

This efficient, consistent, auto type industrial heatsealer is appropriate for use with most types of thermoplastic.

The sealer uses an electromagnet mechanism to activate the sealing arm. 2 sealing modes provide the user with the option to use the cable type foot pedal (Manual Mode) or the Recycle Timer (Auto Mode).

The additional Congealing Timer allows for a longer cooling time & a consistent more secure seal.
